SMART PROFESSIONAL VEHICLES

### **100% GREEN, 100% ELECTRIC**

ADDAX leverages a long experience in operating fleets of electric vehicles to design and build an eLCVs that can afford hard work.

The focus is set on robustness, quality, reliability, autonomy and customization.

### **100% MADE IN BELGIUM**

Based on international best practices, designed and assembled in Belgium by highest standards industry and experienced engineers, and close to your operations for your comfort.

Development, research and production are located in Belgium. Unique. And we are proud of it.

### **GREEN AND AFFORDABLE**

Choose between purchasing or renting. Renting is economically attractive for electric car: for a fixed amount per month, your mobility is guaranteed throughout the duration of the operational leasing contract.

Financially predictable, no budget surprises along the way, no fixed immobilization, no asset-related risks. And you make your fleet ready to meet the Horizon 2020 and COP21 goals.

### **EFFICIENT AFTERSALES SERVICE**

Your electric vehicle is a key component of your business process. At Addax, we built a robust vehicle designed to stand in any kind of situation.

But would they occur, downtime periods need to be as short as possible. In case of breakdown, your connected vehicle immediately transfer us the error code via 3G monitoring, allowing a quick and efficient intervention by one of our mobile local technical teams.

All repairs and maintenance happen on site.

ELECTRICAL DATA		
Model	MT10	MT15
Motor type	Three phase asynchronous	
Motor power	8 kW	9 kW
Motor torque	130 Nm	149 Nm
Battery type	Lithium Iron Phosphate	
Battery capacity	10,2 kWh	14,4 kWh
Battery guarantee	5 years	
Charging	Standard plug (16A 230V)	

TECHNICAL DATA		
Homologation	L7e or N1	
Total passengers	2	
Maximum speed	55 km/h	70 km/h
Autonomy	80 km	110 km
Turning circle	4 m	
Weight chassis cabin	600 kg	
Maximum load capacity	1000 kg	
Maximum towing capacity	2000 kg	
Brakes front & rear	Discs	
Suspension front & rear	Coiled springs	

## STANDARD OR CUSTOMER-TAILORED OPTIONS TO SUIT YOUR BUSINESS

Adapted for your needs, your van benefits from a customized production.

Open or closed cargo box, integrated cooling system, convenient sorting fixture, or just the chassis cab ? Safe and comfortable: double suspension, disc breaks, peripheral ground vision, ...

If your needs fit the standard options for the best price value, or if your business requires specific solutions, you will find the right approach at Addax.

# ADDAX MT

DIMENSIONS (mm)	
Cabin width (without mirrors)	1390
(A) Deck length min/max	2150 / 2420
(B) Maxium width (without mirrors)	1500
(C) Maximum hight (without beacon)	2500
(D) Min/max distance to the load center of gravity from front axle	1075 / 1210
(E) Total length	3590
(F) Overhang - rear	523
Overhang - front	915
Wheelbase	2027
Deck height	780
