COCO PALLET

170 MILLION TREES
PER YEAR
FOR ONE-WAY PALLETS
FROM ASIA

A man in a light-colored button-down shirt and dark pants is smiling and holding a large, square, brown pallet in his right hand and a coconut in his left hand. He is standing in an outdoor industrial or construction area with a concrete floor, a grey wall, and a dirt embankment in the background. To his right is a stack of several more of these brown pallets. The sky is overcast with grey clouds.
