

Finally, an eco-friendly videoconferencing alternative that's affordable

Switch to Crewdle for only **\$4 USD/month** and reduce your carbon footprint

Reduce your carbon footprint

By eliminating servers from your video calls, Crewdle helps you save 2 L of freshwater, 2.2 kg of eqCO₂ and 2.9 kWh of energy per hour of videoconferencing (per participant).

Less costly than other alternatives

With no servers being used during your video calls, we're able to offer paid plans at a fraction of the cost of other alternatives.

Nothing to install

Simple and easy to use. Everything happens directly in your browser.

More privacy

Your virtual meetings aren't stored on a server. They are truly encrypted from end to end.

Features you love

Screen sharing, recording, chat, room permissions, and more!
