

**SEED**  
promoting entrepreneurship  
for sustainable development

Founding Partners

## TO WHOMSOEVER IT MAY CONCERN

Dear Colleagues,

I, Amarnath Munnolimath, *Lead of SEED Starter Programme at SEED* ([www.seed.uno](http://www.seed.uno)) would like to confirm that **Mr. Brenya Isaac, Founder & Managing Director of Ecovon, Ghana** has attended the SEED Starter workshop organised in Accra, Ghana in May 2016. Also, his entrepreneurship spirit and dedication has made him qualify one of the teams selected for the additional support provided by SEED.

SEED is a global partnership for action on sustainable development and the green economy that was founded by the United Nations Environment Programme (UNEP), the United Nations Development Programme (UNDP) and International Union for Conservation of Nature (IUCN) at the 2002 World Summit on Sustainable Development in Johannesburg.

The whole SEED team is very proud of the scale up activities taken by Ecovon and I would like to recommend him for the ongoing competition. If you have any questions regarding Ecovon, please do not hesitate to contact me via email [a.munnolimath@seed.uno](mailto:a.munnolimath@seed.uno).

Best Regards,

**Amarnath Munnolimath**

**About SEED Starter:** The SEED Starter is a programme that supports young teams of entrepreneurs in developing and implementing their innovative ideas. Future eco-entrepreneurs begin by forming teams of 2-5, and coming up with business ideas to tackle one selected main challenge in South Africa. Under expert guidance, the teams will come together in a workshop to develop and refine their ideas. Next, the teams get to test the ideas with potential customers and partners. After that, the teams get together again to present and refine their findings. At the end of the SEED Starter, the teams will have developed a solid concept and be ready to engage partners and investors in the real world.
