What is Enerlyf ?

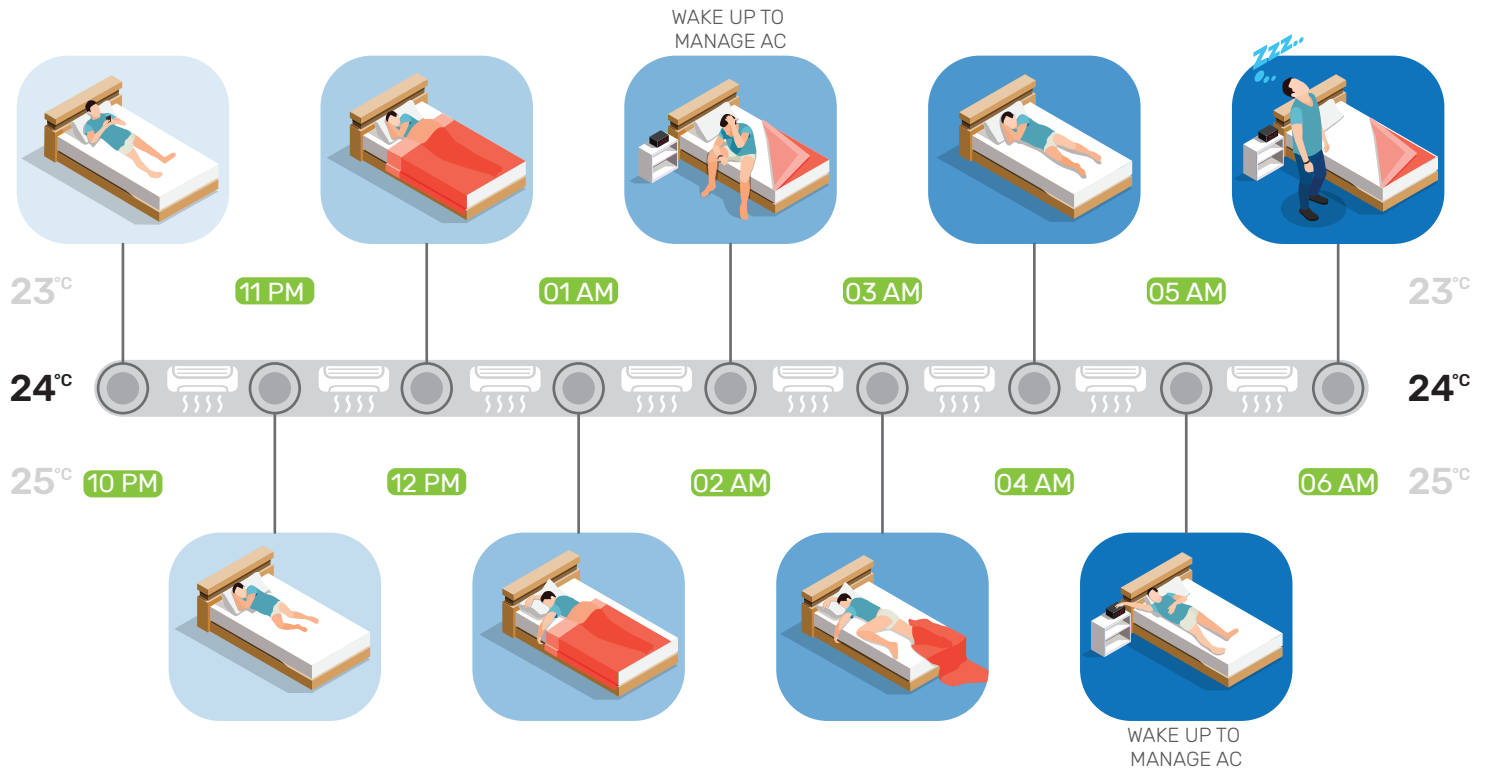

- Enerlyf befriends **Air conditioner** with **Ceiling fan**
- Maintains Your Comfort **Temperature**
- **Reduces** Air Conditioner **Usage** And **Bill** upto **40-45%**

GOOD
SLEEP &
FRESH
MORNING

How it can save up to 45% of the electricity bills ?

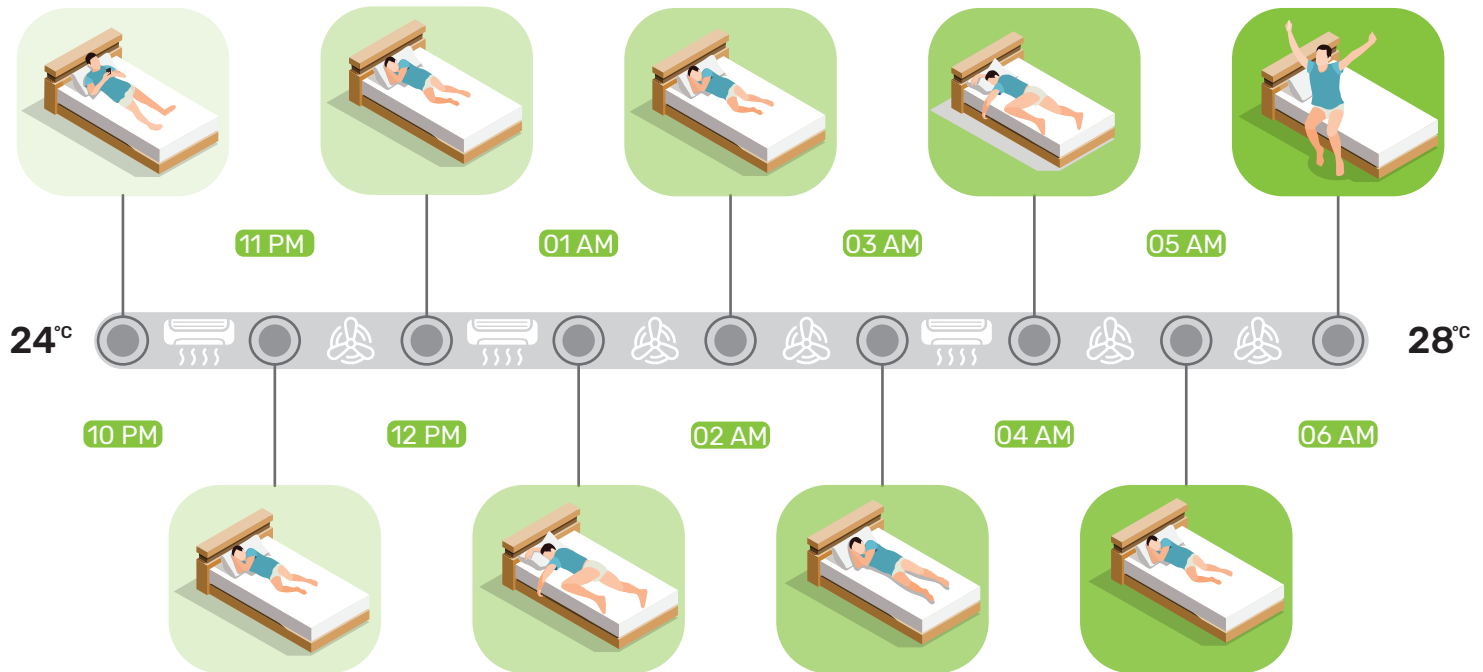

ONLY AC

- AC USAGE = 8 Hr
- CONSIDERING AUTO CUT OFF IN AC , COMPRESSOR RUNNING TIME IS 50% = 4 Hr
- INTERRUPTED SLEEP
- HIGH BILLS

FACT: While sleeping, the human requires decreasing temperature & AC maintains constant temperature which makes you feel uncomfortable and you require a blanket to cover your body from overcooling. When using a blanket, its wastage of cooling.

How it can save up to 45% of the electricity bills ?

AC + ENERLYF

- AC USAGE = 4 Hr / FAN USAGE = 4 Hr
- CONSIDERING AUTO CUT OFF IN AC , COMPRESSOR RUNNING TIME IS 50% = 2 Hr
- SOUND SLEEP
- REDUCED BILLS UP TO 45%

FACT: While sleeping, the human requires decreasing temperature & Enerlyf decrease temperature throughout the night by alternate use of AC & FAN and reduces AC usage almost by half. Which means you don't need a blanket to cover your body and you get sound sleep.

Doing simple math

Only AC
8 Hrs AC Run time

—

AC + Enerlyf
4 Hrs AC Run time

AC usage Reduced by 4 Hrs (Almost 50% Reduction) = Reduced Bills up to 45%

What are the classic features ?

Light Weight, Shockproof, Corrosion Free

Enerlyf is packed in a rich finish abs plastic body, which ensures a long and steady life with resistance to any and all kinds of material damage and shock.

Fire Retardant

We make no compromise when it comes to serving you. That's why all our products are best in class. We use quality wires, which prevent any damage to your home due to fire.

Full-Proof Data

Be up-to-date with your usage with our 7-segment display. We allow you to monitor your savings, crosscheck your power consumption and save more on electricity

Single Multipurpose Switch

Our easy-to-use multipurpose switch along with the seamless interface gives you a hassle-free user experience.

120-Degree IR Blaster

Now control your AC from any corner of your home, without the need to look out for the control panel. Our powerful 120 Degree IR Blaster operates at your ease.

LED Lights

Let's put an end to the fear of stubbing your toe in the dark. With Enerlyf's LED Lights, we ensure you have clear visibility even in the dead of the night.

Low Power Consumption

Every Enerlyf product is optimized to lower your power consumption and maximize your comfort.

Compact Design

We make your homes look good and make you feel good. Our products are designed keeping in mind the elegance of your homes.

36+ Brands of Air Conditioners

Getting a new air-conditioner? Go, right ahead. Enerlyf supports an array of 36+ different brands of air-conditioning systems.

Self-contained Installation Kit

Gone are the days when you had to go looking for tools to assemble. With our product, you get a comprehensive installation kit which help with the entire setup, without any extra cost.

No Re-wiring for Installation

Our wiring is set up in a way where it fits coherently into your existing infrastructure. Without the need for any alteration.

Individual Functionality

After installation, we do not restrict your use of operating your fan and AC separately. You can choose to keep the functions of your AC and fan distinct or use it through our system for more savings..

What are the benefits ?

BENEFITS

Balanced Room Temp

No more over cooling & No more hot spots in your rooms. You get rid of increasing or decreasing your AC temperature. We manage it smartly by switching between AC & FAN hence you get the best comfort without human intervention.

Sleeping well directly affects your mental and physical health. When you have no disturbance in sleep and balanced temperature, you get a peaceful sleep which is your birthright.

Peaceful Sleep

Reduced Bills Upto 45%

When your AC is not running for almost half of the time, there is a simple calculation shows that you are going to save your bills. With the reduced AC usage, your appliance life gets increases as well.

As the AC cools your room and increases the outside temperature, which in turn makes the earth hotter day by day. With your reduced and optimised AC usage, your contribution makes the earth green.

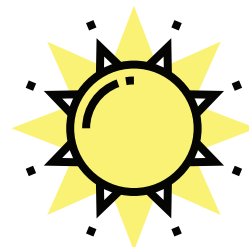

Green Earth

COMFORT KEEPER IN ALL SEASONS

Be it any time of the year, we manage your homes just like the way you want it.

Enerlyf lets you take control of your house. You can operate the cooling of your home according to your comfort.

Can I track my savings ?

TRACK YOUR SAVINGS.

Yes! You can track how much you have saved and consumed with three intelligent data on the product display.

01. Percentage of time AC remains OFF

P

42.00

02. Total Run Time of device including AC & FAN

tot

08.20

03. Only AC Run Time.

on

04.50

If I want to use AC & Fan Individually, shall I?

After installation, we do not restrict your use of operating your fan and AC separately. You can choose to keep the functions of your AC and fan distinct or use it through our system for more savings..

I use AC & Fan both together, How it will function?

Our system is capable to provide such functionality. You can keep your Fan ON all the time and it will only switch Air Conditioner ON & OFF. Our motive is to reduce AC usage which contributes the major part of your electricity bill.

★★★★★ **Very smart ,Make In India product.**

Reviewed in India on 17 April 2020

Verified Purchase

Eventhough I bought this one, by Feb ,

Last week only I started using AC regularly,as night temperature became horrible(Chennai).

Now about the product,installed easily with YouTube help,and given manuall.

Generally AC night setting is very tough,coz is,easily it disturbs our sleep,either too cold or saltriness.

Even recommend temp.is 25 Deg,,as hrs increase,it becomes too cold,after started using this device,it smartly balances fan and AC. Undistrubed sleep.Thanks for such product.

I checked physically with EB meter,for two hours of usage ,using direct temperature,and this controller.almost 45 percent energy consumption is less.

Both trials,started with same room temperature and same day timings.

Hatsoff to make in India,product.

First time I am proud ,bought a non China electronic product.

If anyone having doubts they can WhatsApp me 9789959953.

Actually it is Very good thought & product.

In My case my switch board is having one light, fan switch and fan regulator so your electrician connected it directly to power supply. So , I was not able to power on/off the equipment.Hence, My suggestion is to maintain one power button on the equipment for on/off.

Happy with performance and easy user interface

Reviewed in India on 11 December 2018

I bought this product from company direct. They gave me proper Installation support. I am happy with my almost 37-40% of reduction in bills. User interface is very simple. Any old age people can operate easily. After 1st purchase, I had bought two more devices for my parents and grandparents. It is very useful for people who has joint pain issues. My grandmother was suffering from the same. Now she feels good.

 amit tiwari

★★★★★ **Value for money device that delivers.**

Reviewed in India on 5 April 2018

Verified Purchase

It works! Without any wifi-bluetooth or techy setup, it just turns on and off AC depending upon how cool or hot my room is. Its not just 50% less runtime of AC and subsequently less electricity bill but I feel my sleep cycle has improved because i don't have to wake up a dozen times to turn off the ac or cover my son so that he doesn't catch cold. Considering howong summers are in Delhi, it worth its price. Totally love it.

 Nishant

★★★★★ **It was an easy installation process**

Reviewed in India on 19 February 2018

Verified Purchase

I was literally got irritated managing fan and AC manually so, I ordered this product just as a chance, Electrician guided very well by the company, It was an easy installation process. The product is working really very well and I am personally using it since 4 nights, it gives me lot of comfort and it really cut the power of AC which says yes electricity will be saved. One should definitely buy this product.

Excellent product. Bought it after studing the mechanism and literature review. Fully satisfied with the product. It's simple to connect and actual savings needs to be monitored from monthly electric bill. I am using it with HITACHI window AC

 eshwar makam

★★★★★ **Awesome product**

Reviewed in India on 3 March 2018

Verified Purchase

Excellent product... works as described. Connection was by my electrician.. he had some doubts connecting it which was promptly solved by the support team. Overall a great product. One improvement which can be done is to have an app which can keep track of the usage. Even tho it gives total hours of particular session it does not give total for full month. So an app which can connect and track daily activities would be a great value addition

 Aasheesh

★★★★★ **Awesome product!! Just go for it.....**

Reviewed in India on 6 March 2018

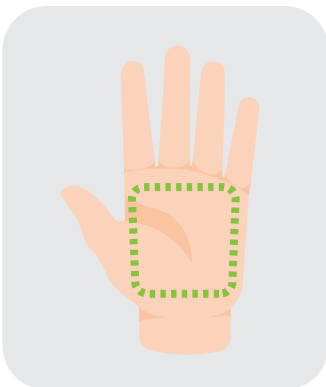

Verified Purchase

Brilliant product. Installation though needs to be done by a competent electrician. Seller is extremely cooperative and courteous. Still need to assess and validate the savings on power bill. It certainly makes a difference to one's night sleep, as it keeps the room temperature just perfectly balanced.

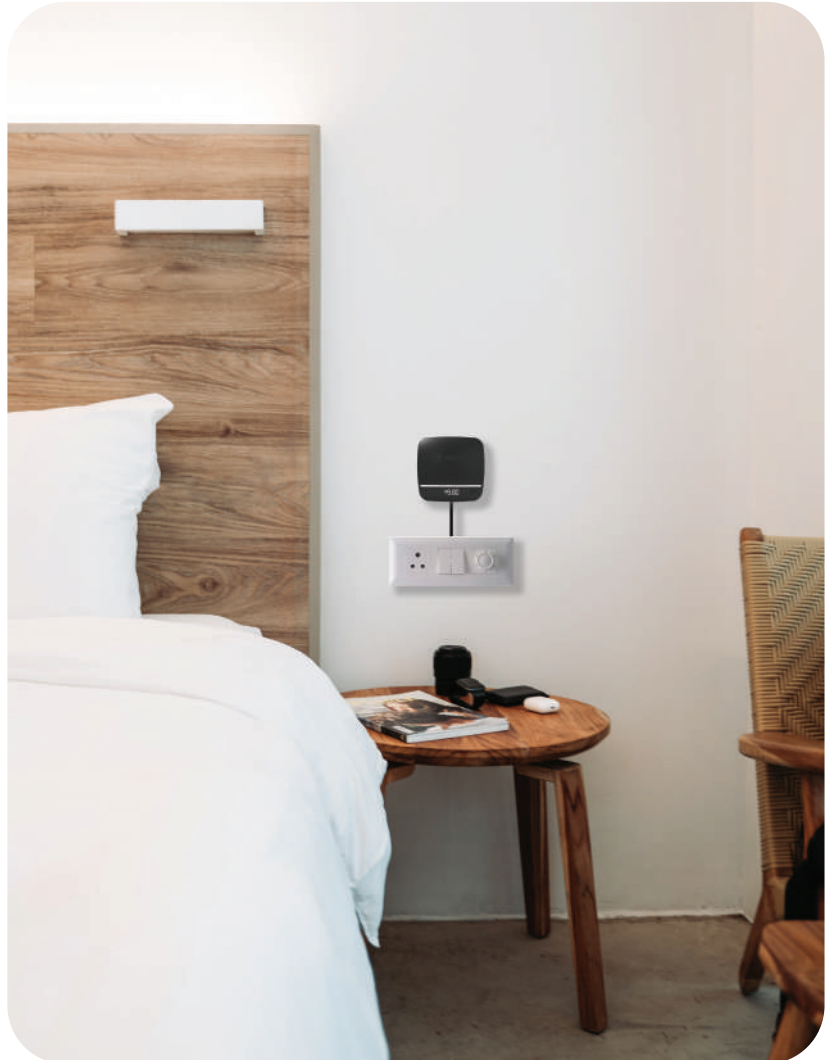

What is the size of the device and where it will get installed ?

Palm Size

94*94*33 mm

Installation above
fan switch

It connects with Fan switch only. So it does not require an AC & Fan switch on the same board. The device connects with AC wirelessly and does not require any physical connections. Hence it will not affect the warranty of your AC as well.

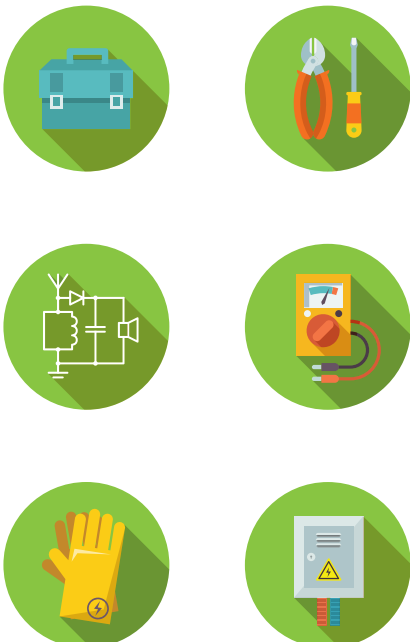

Who will be going to install the device at my place?

Company trained Installation engineer will install the device.

We have trained engineers in these cities.

Mumbai | New Delhi | Bangalore | Hyderabad
Chennai | Noida | Gurugram | Pune | Surat
Baroda | Rajkot | Ahmedabad

Video Call support if engineers are not available.

Call / Whatsapp to 7069007006

Any electrician having the skill to install fan or switch can easily install ENERLYF.

Kindly follow step by step operations to install :  <http://bit.ly/ICUEnerlyf>
