

Kerhea

Made from Nature

Today,

100
MILLION

tons of plastic are thrown away
in the nature each year

In leisure areas
Garbage piles up...

LEGISLATION

By 2020 & 2021

Banning of single-use plastic disposable dishware issued from petrol

By 2029

90% of plastic bottles will have to be collected and recycled (*target set by the EU*)

Incentives

From municipalities to adopt a **weight tax** for waste

Objective:

Remove **20kg** of waste per person

-20kg

Be innovating
IN FAVOUR OF THE ENVIRONMENT

Consume
DIFFERENTLY

Help people
TO USE LESS PLASTIC

Reduce and transform
WASTE INTO RESOURCES

Our key activities

Our added-value

- **MANUFACTURE, DISTRIBUTE AND COLLECT BIOSOURCED PRODUCTS:** bottles, gourds...packaging...all plant-based
- **OBJECTIVE:** reduce single-use plastic and provide a global plant-based products offer

→ **OFFER END-TO-END SOLUTIONS FROM CONCEPTION TO RECYCLING**

→ **RELY ON A STRONG NETWORK OF PARTNERS**

→ **PROMOTE CIRCULAR ECONOMY (3R – REDUCE, REUSE, RECYCLE)**

100% Plant-Based Bottles

Manage

Waste directly at the source

&

Become a consumer

More aware and responsible

- Bottled or not
- Customizable
- Compostable and/or recyclable

50cl

100% Plant-Based 'Gourdes'

Manage

Waste directly at the source

&

Become a consumer

More aware and responsible

- Available in 75cl
- Biodegradable
- Reusable

100% Compostable Dishware

Manage

Waste directly at the source

&

Become a consumer

More aware and responsible

- A complete range of products made from plants
- Designed and suitable for your plastic-free events
- Recyclable thanks to our ecological terminal

Kup & Ko

Collect and Recycle Bioplastics

Encourage people

To better sort out, reuse and recycle their waste

& Promote

Green initiatives and eco-citizen actions

Klean.i: a waste terminal
easy-to-use

Using of an IT integrated application

2 traps with 2 crushers:

→ one dedicated to the bottles,
the other for the whole dishware and biowaste

Revalorize Bioplastics

Decrease

The amount of plastic waste

Reduce

Our ecological footprint and its environmental impact

Transform

Waste into resources
