Heat what you need

Mixergy's smart and connected hot water tanks help you live better, save money, and reduce your impact on the environment.

# THE AWARD WINNING MIXERGY TANK

Mixergy are the market leaders in smart and connected hot water tanks. We help you live better, save money, and reduce your impact on the environment.

Our award-winning tank gives you all the hot water you need, when you need it, with our patented top-down heating technology. Compared to conventional tanks, you can save up to 40% on your hot water bills and heat your water 10x faster!

## Heat what you need

Save up to 40% on hot water bills

## Heat quicker

Mixergy tanks deliver hot water up to 10x faster than a conventional tank

## Smart control

Control your Mixergy tank through your Alexa or Google smart home device or via the Mixergy app

## Flexible heat source

Mixergy tanks work with gas or oil boilers, electric heating, solar PV, solar thermal or heat pumps

## 25-year warranty

When registered and connected, all tanks come with a 25-year warranty on faulty materials and manufacture as standard

## Smart tariff ready

Integrate your tank with off-peak renewable energy tariffs to save energy and money

# ALWAYS IN CONTROL

With the Mixergy app you are always in control of your tank 24/7!

Be as hands-on as you like by monitoring your 'state of charge', setting schedules, boosting your hot water, tracking your consumption and much more...

All our tanks also come equipped with a simple gauge that is attached to the controller on the tank, so you can easily manage it without having an internet connection.

## Constant control

The app and control gauge show how much hot water is available at any time

## Predictive charging

Machine learning uses predictive charging behaviour to heat just what you need

## Adjust energy source

Seamlessly adjust or swap energy source settings within the app to maintain your hot water needs

## Usage and Insights

Track how much hot water you use throughout the day and compare with other tank owners

# WHAT'S THE RIGHT TANK FOR YOU?

Mixergy tanks come in a range of sizes and configurations so that they can be tailored to suit the individual needs of your home.

Available as both vented and unvented systems, they work with an extensive range of heat sources, from gas boilers to solar and heat pumps.

Proven to deliver up to 30% more usable hot water compared to a conventional tank, you can actually install a smaller tank with no loss of performance.

Mixergy tanks are also available as a slimline option which have a smaller footprint to height ratio.

Connect with an Installer near you!
