

Shenzhen Meiruixin Technology Co., Ltd is a comprehensive service provider of plastic film and its products, engaged in the research and development, production and sales of all kinds of plastic film and its products. The products mainly include: RPET (Recycled PET), APET film, Anti-scratch PET, Aurora PET, Laminated film and other plastic film. The materials are widely used in packaging, printing, blister, plastic box, medicine, advertising, lighting and so on.

We pay close attention to environment protection and sustainability, and have GRS and SCS certificates. Our flagship product RPET is made of recycled post-consumer water bottle. Compare with virgin PET, RPET profit: recycle water bottle, reduce CO₂, save landfill, save petroleum.
