

THE RUSSIAN CORPORATION HAS 25 YEARS OF EXPERIENCE IN THE FIELD OF INVESTMENT AND INNOVATION

Company goals

Joint Stock Company Russian Financial and Industrial Corporation is a group of companies guided by common goals and objectives, striving to develop, introducing innovative technologies and using the world experience of financial and industrial groups - FIGs. Flexibility in decision-making and coordination of joint efforts, combined with the stable and long-term nature of the links between the enterprises within the group, endow them with great advantages. They are manifested primarily in the following possibilities:

- to carry out their long-term strategy related to the ability to foresee and predetermine the future state of the market;
- organize joint production and economic activities, implement joint research and production programs;
- deepen specialization and develop cooperative ties, cooperate in the supply and sales sphere in order to save relevant costs;
- to improve the consistency of actions of enterprises in industrial integration;
- finance research and development and promptly introduce the results obtained into production;
- expand the circle of investors, strengthen relations with financial institutions;
- consolidate investment resources; -profitably redistribute investment resources, concentrate them on the most profitable and payback areas;
- optimize material and financial flows, including in terms of tax liabilities;
- save on costs due to transfer prices, large-scale production, which allows differentiating prices, reducing losses associated with fluctuations in market conditions;
- to reduce the need for working capital through the use of commodity loans, bills, etc.;
- improve the business image in the domestic and foreign markets.

Historical reference

The urgent tasks of economic project management, which have both national and global economic significance, are formulated within the framework of our foreign economic concept. The ideas of sustainable socio-economic development of Russia based on creative entrepreneurial initiatives, innovative technologies, active development of industrial, commercial and humanitarian projects, harmonious development of territories, were laid back in 1992, at the stage of formation and registration of the Corporation by enterprises of the Ministry of Aviation Industry,

Ministry of Medium Engineering, Department of Instrumentation, with the participation of UK and Chilean companies. At present, the Russian Corporation is a private company with foreign capital (25%), which was given the name “Russian Financial and Industrial Corporation” by the decree of the Government of the Russian Federation. The Corporation's mission is sustainable, responsible development of territories, development of natural resources based on innovative technologies, taking into account the solution of social problems and care for the ecosystem of the planet.

Way of thinking

If knowledge is power, we want

What would she have won!

Institutional approaches:

The corporation, in accordance with investment agreements, buys back from 25% to 100% of the block of shares and / or shares of the enterprises initiating the projects, until the investment is fully paid off.

Investment mechanisms:

The corporation analyzes, evaluates the market, conducts a feasibility study for the feasibility of the project, organizes the attraction of innovative technologies, provides financing, government support, legal support, accounting and auditing support, provides land and production facilities.

Organizational solutions:

The corporation provides a deep complex due diligence of the enterprises initiating projects (“due diligence”), preparation of Feasibility studies, Feasibility studies, business plans, design estimates, construction permits and other basic documents necessary to attract investments. Using its own investments, financial instruments, attracting private investors, it provides financing for projects of companies that are part of the Group.

Offer to partner

Taking a step together is the beginning

Sticking together is progress

Working together is a success!
