CREATING A GREENER SUSTAINABLE FUTURE FOR FOUNDRIES

YOUR TRUSTED PARTNER IN FOUNDRY SOLUTIONS

Built on the foundations of technology and knowledge, what began as a specialized project engineering consultancy in 1983, is now well established as an innovation led Foundry equipment company.

Rhino leads the way with a strong design and manufacturing team, right infrastructure and a commitment to better industry standards. What sets Rhino apart is its belief in continuous innovation and finding smarter engineering solutions to work towards cleaner energy and a healthier work environment.

Rhino with its team of technocrats, works with International technology leaders and markets specialized equipment and consultancy services which complement its manufacturing capabilities.

OUR VALUES

Products

that give higher return on investment

Technologies

apt for the Indian foundry market

Solutions

that are technologically superior and commercially viable

Services

aimed at increasing growth prospect

RHINO'S HOLISTIC SOLUTION BASED APPROACH WORKS TO:

- Drive Higher Efficiency
- Accelerate Profitability
- Amplify Productivity
- Affect Seamless Process Integration
- Lower Total Cost of Ownership

TOP OF THE LINE INFRASTRUCTURE

Rhino has a lean and adaptable manufacturing facility located at the Engineering hub of Gujarat, Vallabh Vidyanagar. Adequate investments have been made in machines that help provide robust and reliable foundry equipment and moulding solutions to customers. Rhino has also invested in training & creating a skilled workforce aligning with the World's best technical training partners.

SOLUTIONS THAT DELIVER RESULTS

Rhino's robust and efficient solutions are a perfect fit for the automotive, railway, steel, power, and engineering sectors. It is a single source supplier of:

Green Sand Process Solutions comprising of

- Sand Preparation & Re-conditioning Equipment
- High Pressure Moulding
- Automated Mould Handling with Robotic Integration
- Molten Metal Handling (Pouring) Solutions

Sand Reclamation

- Green Sand to Core Sand Reclamation
- Thermal Sand Regeneration
- Green Sand to Moulding Sand Reclamation
- CO₂-Silicate Sand Reclamation

Project Engineering & Turnkey Projects Management
