

Installations of the Zerho Waterless Toilet in Limpopo during December 2020

Word-of-mouth and continuous informal training are key tools for success

The sanitation pits and top structures that were replaced with the Zerho Toilet

The closer proximity to the house is made possible with the Zerho Toilet; offering a higher level of safety and convenience

The buy-in and relationship with the community; and their own strong commitment to community-building, are the cornerstones for success.

Commitment always makes a plan to get a quality job done.

Safe Sanitation impacts on everything.

Achievement in 2020 – an international label

Waterless, Sludge-less, Off-grid – relevant, no matter where you live.
